SUB-DEAN'S NICHE

The time to wish you a "Happy New (AGO) Year" will soon be here!

From a programming and budget point of view, our 2007-2008 fiscal year begins June 1st. And our Columbus Chapter's New Year celebration promises to be spectacular!

Our first program event of the year will be the Young Organists Symposium on Monday, June 25 at Asbury United Methodist Church in Delaware. Sally Casto, Jan Linker, and Jane McFadden are cooking up a compelling program targeted at kids ages 10-14, although people younger or older than this age bracket are also welcome. I can hardly wait to take one of the young people in my life to what is sure to be a memorable day. I hope you will commend this program to your network of young people and their parents. Have you ever heard a kid complain about being bored during summer vacation? Well, let's do our part to stamp out such complaints in central Ohio this summer!

For more boredom-busting opportunities, there are a number of AGO Pipe Organ Encounters (POE) offered around the country this summer, including a POE in Athens, Ohio July 15-20. Additional information may be found at the national AGO website: <http://www.agohq.org/education/indexpoe.html>.

Hopefully, by the time you are reading this newsletter, you are already registered for AGO Discovers Columbus 2007, our highly anticipated Region V AGO Convention June 25-28. The exceptional programming has captured attention throughout our region and beyond. The convention's first-rate website contains a wealth of details and a registration form at <http://www.conferencesite.org/>.

Because of the convention, we will NOT have a chapter meeting in September. Please join us again for programs, starting in October. A preview of events in formative stages includes a celebration of the Psalms, consuming rich desserts while enjoying connections between visual arts and organ music, and a Pizza, Pedals, and Pipes event for young people.

I look forward to seeing you soon.

With warm regards,

Laura Silva, CAGO, Sub-Dean, Columbus Chapter AGO
